## The Physicians Circle for Patients

Please refer your poor, **needy patients** who cannot **afford medications** to our PCP program. If you are short on **time and resources**, we can help these patients get access to very **low cost** medications.

### WHO WE CAN HELP:

- o **Low income**\* patients without prescription insurance
- o Medicare Pt D patients in the **"donut hole"**
- o **Medicare Pt D** recipients who make less than \$1,471 (\$1,991 for couples) per month by applying for **"Extra Help"** with prescription costs and insurance premiums.

\*Income requirements: Annual Income of 200% or less of the Federal Poverty Level. Example: \$23, 540 for singles and \$31, 860 for couples. However, limits vary based on the specific program. If your patient is having problems paying for prescription medications, please refer them to us for a quick and simple eligibility screening.

*"Transforming lives by providing services to our communities."*
